

Making the new normal work

HR LEADERS CIRCLE OF EXCELLENCE

Brought to you by

During the pandemic, everyone turned to Human Resources as a crucial front-line resource. Who can HR leaders turn to? Our **HR Leaders Circle of Excellence**.

As re-entry plans are being formed, questions remain around how businesses should communicate with and listen to employee concerns, and keep everyone safe and reassured. Work schedules, seating arrangements, who comes back first and even break room policies are all top of mind. Join us and meet with dozens of industry colleagues, share your successes and discuss your thinking for post-pandemic reality. During this virtual one-hour session, HR colleagues will share best practices and learn new strategies for how to stay agile, practice resilience, promote mental health and well-being, and provide a vision for a stronger, brighter future.

The HR Leaders Circle of Excellence is sponsored by RI Bio and the RI Department of Labor & Training's Back to Work RI Program. For more information or to register, email RI Bio Program Manager Stacey Carter today at StaceyCarter@ri-bio.org.

Registration is limited, so don't delay!
